

The Walkerville Society Inc

President's Report 2010

I welcome you all to our Annual General Meeting

I have pleasure in reporting on the past 12 months of the Society .

We continue to pursue matters agreed on by the Management Committee, namely

1. review the minutes of the Walkerville Council and circulate to our members and others who are interested by way of email noteworthy items of interest extracted from the Council's minutes which we believe would be of interest to them.
2. provide a means of educating our residents through information meetings/seminars on matters of importance to our community.
3. make representations on behalf of our members to the Walkerville Council where:-
 - 1.1. members have requested that such occur and
 - 1.2. the Society is invited to do so by the Walkerville Council.

In respect to the above during the past year we have accomplished the following:-

1. Established our Web site in May
2. Through the diligent work of David Higbed, summaries of Walkerville Council meetings have been prepared, these we will now post on our new website.
3. Committee has had a meeting with Kiki Magro, CEO of the Corporation of the Town of Walkerville, at which matters of general interest were discussed, and more importantly channels of communication were established.
4. Held a Town Forum in May 2010 with a panel on "A Vision for Walkerville"

It is our intention to continue to be proactive in making representations on behalf of our members and to have further Town Forums.

I thank my committee for their efforts during the past year and especially our Secretary Rosemary Craddock for her support.

I move the adoption of my report.

Tony Pederick OAM
President
